## SOME OF OUR PRODUCT RANGE.....

## ABOUT UXC.....

DTS is part of UXC Limited, an Australian-owned ASX Top 300 company that provides market-leading business solutions to medium and large enterprises in the private and public sector across Australia and New Zealand.

Please visit [www.uxc.com.au](http://www.uxc.com.au) for more information on UXC Limited.

The biggest issue facing businesses today is data protection. The emphasis on backup software, data replication, storage arrays and speed of information transfer is ever increasing, and today's customers are not just demanding products but complete data management solutions.

**Data Technology Solutions** is a value added distributor with the data management solutions your clients need. From disk arrays and storage libraries to WAN acceleration and even data management software. **DTS** has all the pieces to fit the data protection puzzle.

Combining our Overland Storage tape libraries & disk based backup appliances, WAN acceleration appliances and CommVault software, **DTS** will work closely with you to assist in the growth of your business and ensure the integrity of your data.

In addition, at **DTS** we have some of the best engineers in Australia. These engineers have been specifically trained to ensure that you receive the technical support and advice you need. At **DTS** we pride ourselves on our technical ability and believe that this expertise sets us apart from the rest.

Less than confident in your current backup library?  
Make the switch to the reliable NEO SERIES™ from Overland Storage.

#### SUPPORT.....

**DTS** has a national support organisation with over 40 industry leading pre and post sale hardware and software engineers providing support for our clients 24 x 7 if required. Our experience is immense, our 'No Finger Pointing Policy' is unique and works, just ask our customer base of Australia's leading organisations.
